Limited Review Report on unaudited standalone financial results of Exide Industries Limited for the quarter ended 30 September 2022 and year-to-date results for the period from 01 April 2022 to 30 September 2022 pursuant to Regulation 33 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

To the Board of Directors of Exide Industries Limited

1. We have reviewed the accompanying Statement of unaudited standalone financial results of Exide Industries Limited ("the Company") for the quarter ended 30 September 2022 and year-to-date results for the period from 01 April 2022 to 30 September 2022 ("the Statement").
2. This Statement, which is the responsibility of the Company's management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Our responsibility is to issue a report on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with applicable accounting standards and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.

Press Release

Exide reports 32% growth in both Sales and PBT in the first half of the financial year 2022-23

Standalone financial performance highlights

Particulars	Units	Q2FY23	Q2FY22		H1FY23	H1FY22
Revenue from operations	Rs. Crore	3,719	3,290		7,618	5,776
EBITDA	Rs. Crore	412	413		799	674
PBT	Rs. Crore	330	315		633	478
PAT	Rs. Crore	246	234		473	360
EPS	Rs.	2.90	2.75		5.56	4.23

Key Financial Highlights

- Sales momentum remains healthy, as revenue from operations grew by 13% and 32%, year-on-year in Q2FY23 and H1FY23, respectively.
- Our effective cost optimisation initiatives continue to lower fixed costs. Total fixed expenses (employee costs and other expenses) were 19.4% and 18.7% of sales in Q2FY23 and H1FY23 (down from 20.2% in Q2FY22 and 20.5% in H1FY22).
- High input costs continue to impact profits on a year-on-year basis. However, EBITDA margin increased to 11.1% in Q2FY23 as compared to 9.9% in Q1FY23. Similarly, PBT increased to 8.9% in Q2FY23 as compared 7.8% in Q1FY23. Judicious pricing strategies along with sequential respite in input cost inflation have supported margins.
- We maintain our track record of generating high cashflows and a comfortable balance sheet with zero debt.

Key Business highlights

- Demand scenario was upbeat, both in the replacement market and with the OEMs, thereby driving volumes both in Q2FY23 and in H1FY23. Improvement in semi-conductor supply situation led to demand recovery from OEMs.
- The Industrial vertical witnessed strong recovery compared to previous year, driven by pick-up in business activity.

Other key updates

- Exide Energy Solutions Limited, the wholly owned subsidiary company, conducted the Bhoomi Poojan ceremony of its lithium-ion cell manufacturing facility in Bengaluru in September 2022.
 - The ceremony was graced by the Honourable Chief Minister of Karnataka, and the Honourable Minister for IT, BT, Higher Education & Skill Development along with other key government representatives.
 - The event marked the formal start of construction of one of India's first multi-gigawatt hour lithium- ion cell manufacturing facility.
- Exide Leclanche Energy Private Limited, the JV subsidiary company ('ELEPL'), through a buy-back scheme, bought back the entire paid-up and issued equity shares held by "Leclanche S.A." ('LSA') on 4th of November, 2022. As a result of this buy-back, ELEPL is now a 100% subsidiary of Exide Industries Limited with effect from the same date.

Since, the requisite technology for Li-ion battery pack and assembly offered by LSA has already been absorbed by ELEPL, the management does not foresee any problem as a result of the above development.

Commenting on the performance – Mr. Subir Chakraborty, MD & CEO, said

'Sales growth of 13% and 32% respectively during second quarter and first half of the year is driven by uptick in volumes and our judicious pricing strategies across verticals. From the current quarter onwards, our profitability margins have also started recovering compared to the immediate previous quarter. Easing of unprecedented inflationary pressures in input costs and benefits of the cost optimisation strategies have contributed to margin increase. We expect buoyant demand scenario to remain in the medium-term across most verticals and margin recovery to be supported by respite in input costs to some extent.'

'We have recently conducted the Bhoomi Poojan ceremony and are delighted to announce a formal start to our lithium-ion cell manufacturing project. While we have been maintaining the leading position in the lead-acid battery market for the past 75 years, we are simultaneously taking significant steps to strengthen our position in the emerging Li-Ion space.'
