

Exide Industries Ltd.- Green Technology Solutions

September 2023

Exide Industries: A Brief Snapshot

Exide Industries at a snapshot

75+ Years of Operations in India

Presence in 60+
Countries

5,200+ Employees

06
Overseas
Technical
Collaborations

10

Manufacturing Plants

54 million Automotive Batteries produced p.a.

5.8 billion AH of Industrial Power Supply p.a.

252 KMT

per annum

Capacity of Three Lead

Recycling Plants

Rs.22,500 crore+*
Market Capitalization

Rs.14,500 crore+
Revenues

Rs.1,500 crore+ EBITDA

> Rs.900 crore+ PAT

Comprehensive product portfolio serving multiple applications

We manufacture batteries for multiple applications in automotive sector

3-Wheeler

E-Rickshaw

Vehicular

4-Wheeler

2-Wheeler

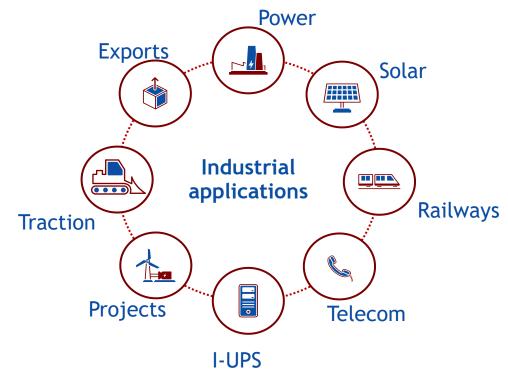

H-UPS

 Wide range: 2.5 Ah for 2-wheelers to 260 Ah for Nonvehicular

• Wide range of warranty period: 12 months to 77 months (flat + pro-rata)

We are a reliable power solution provider for all industrial applications

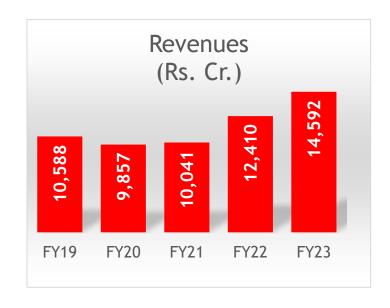

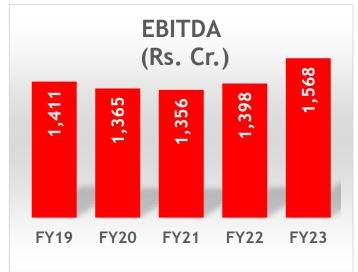

- Industrial batteries range: 7 Ah to 3200 Ah for multiple applications
- Other application areas: Batteries for submarines

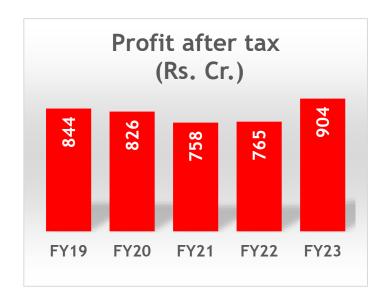

Consistent financial performance over the years

- Strategic initiatives to boost sales and control costs enabled company to deliver consistent performance
- Healthy profit generation despite tough macro environment in past few years

- Generated positive cash flows for last 10+ years
- Zero debt company since 2011¹

^{1.} Except for short-term borrowing for overseas equipment purchases @ 1-2% interest availed during FY15-FY17, Profits exclude exceptional items

Green Technology Solutions: Lithium-ion Cells & Batteries

EXIDE India's electrification demand expected to be 150GWh by 2030

Lithium-ion demand (GWh) in India by 2030

	2Ws
	3Ws
lity	4Ws
Mobility	LCV / HCV
	Buses
	Tractors
	Mobility Total
	Stationary
	Total
	Total

2025	2030
10 - 12	40 - 45
1.2 - 1.7	5 - 6
4 - 5	40 - 45
0.9 - 1.2	3 - 4
1 - 1.5	4 - 5
1 - 1.5	6 - 7
20-30	100-110
20 - 25	50 - 60
40 - 50	150 -160

Market adoption drivers across user segments

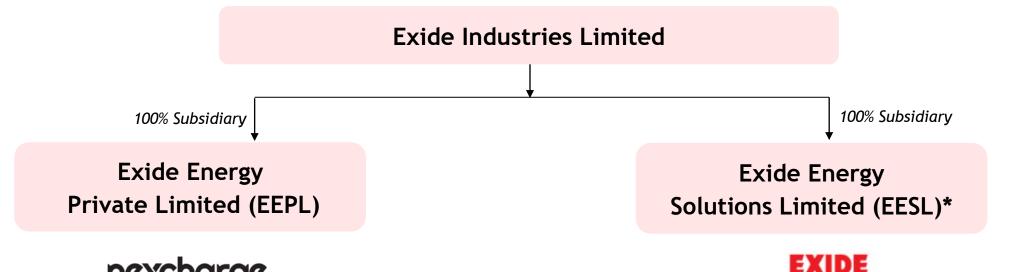

- 2W & 3W: Personal, B2B, e-commerce
- **4W:** Personal, taxi fleet, city buses
- **CV:** Last mile connectivity, increasing demand from construction and infrastructure sectors
- **Renewables:** Increased Government focus, surging demand for gird/off grid storage for renewable
- **Telecom:** 5G roll-out by telecom companies
- Data centers: Large expansion plans of IT sector companies

Source: Internal Assessment

EXIDE Exide is ahead of the curve in its lithium-ion foray

- nexcharge
- Established in 2018
- Develops and manufactures lithiumion based modules and packs
- Manufacturing plant in Prantij, Gujarat
- 1.5 GWh capacity

- Established in 2022
- Focus on manufacturing of advanced chemistry cells

ENERGY

- Manufacturing plant in Bengaluru, Karnataka
- 12 GWh capacity in two phases

EXIDE Our lithium-ion cells and batteries manufacturing facilities

nexcharge

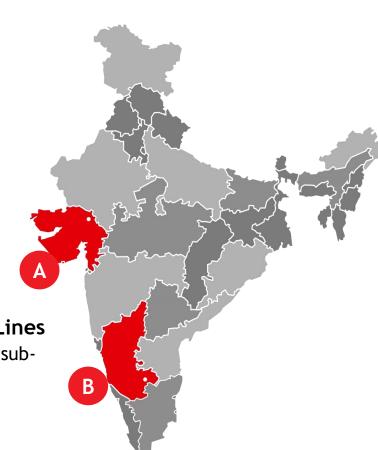

Facility 1 in Prantij, Gujarat

Existing land $: 56,680 \text{m}^2$

 $: 9,528m^2$ Built-up area

Li-ion Module and Pack Assembly Lines

- Pouch/Prismatic/Cylindrical cell to submodule
- Sub module to module
- Cell testing lab
- Prototype and pilot line

Facility 2 in Bengaluru (upcoming)

Area: 325,000 m²

Total investment: Rs.6,000 crore

Li-ion cell manufacturing and packs & module facility

Phase I - 6 GWh (2025)

NCM: 3 GWh

LFP: 3 GWh

Phase II - 6 GWh

Engineering and R&D Facility in Bengaluru

EXIDE Nexcharge product portfolio for key transportation and industrial applications

Bus Battery Pack

3 Wheeler Battery Pack

2 Wheeler Light Duty

2W Medium Duty & Heavy Duty

Telecom

Energy Storage Systems

UPS Battery

UPS Battery

EXIDE Nexcharge has strong technical capabilities to cater to diverse customer specifications

Our strong technical expertise

Deep design capability: providing energy density, thermal stability and functionality

In-house competency: Ability to customise as per customer specifications

Quality manufacturing: Automated process for compliance with high standards

Economies of scale: High scale processes at competitive costs

...can provide solutions across verticals

Transportation

- 2-wheelers
- 3-wheelers
- Passenger vehicles
- Commercial vehicles etc.

Industrial & Utility

- Commercial & Industrial
- Renewable integration
- Telecom
- UPS & data centers etc.

Order book of Rs. 600-700 crore as on 31st March 23 to be executed in next 12-15 months

Technical collaboration with SVolt

- Multi-year technical collaboration for liion cell technology
- Support for setting the plant on a turnkey basis

SVOLT

- Leading li-ion cell manufacturer
- Headquartered in China
- ~3000 team members and ~500 experts in Liion battery R&D

Wholly owned subsidiary Exide Energy **Solutions Limited**

- Multi-gigawatt green field project for li-ion cell manufacturing
- Offer complete end to end solution: from cell to system, from molecule to megawatt

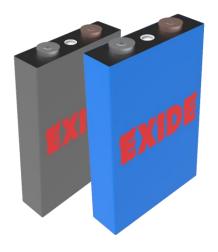

EXIDE 4 lines being planned for Phase 1 capacity of 6 GWh

Cylindrical Cells -4.2Ah & 5Ah

Radial Prismatic Cells -106Ah, 157 Ah & 228Ah

EXIDE Our competitive edge and value proposition

End-to-end "Cell to Pack" product portfolio

- Multiple chemistries/form factors
- Customizable module/pack solutions
- Indigenous BMS solution
- Joint product development integrated with New product Development cycle

Backed by SVOLT's world class technology & quality

- Tech partnership with global li-ion cell player
- Industrial leading thermal stability
- Automated robotic assembly
- Robust Quality check test points within manufacturing process

High focus on offering competitive costing

- Strategic long term raw material sourcing partnerships to improve product costing
- Manufacturing efficiencies through automation & technology deployment

Scalable operations to meet customer needs

- State-of-the-art manufacturing plant planned with multiple production lines
- Potential access to strong dealer network for charging and after-sales market support

Particulars	Progress
Organization	 Recruitment of top tier team comprising experienced and senior personnel to support project execution and delivery has been completed
Funding	 Mix of internal accruals and loan financing Recently secured banking credit line for project financing
Project Construction	 Key approvals obtained; on-ground construction works progressing as per the plan Selection and order placement for equipments under progress
Technology	 Jointly working with SVOLT to achieve key milestones across workstreams R&D members training with SVOLT team is underway
Supply Chain	 Identification and onboarding of local and international suppliers under progress
Volume Off-take	 Active customer engagement across mobility and stationary applications

EXIDE Onsite construction works going on in full swing

EXIDE Lithium-ion cell manufacturing facility - Final View

Administrative building

In this document, we have disclosed forward-looking information to enable analysts and investors comprehend our prospects and take investment decisions. This document and other statements-written and oral-that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions.

The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statement or comparative assessments, whether as a result of any new information, future events or otherwise.

We accept no responsibility for any loss and/or damages, risks and/or liabilities, which may be incurred and/or suffered by any investor on account of or arising from the use of the information by investors. We make no warranties of any kind, whether express or implied, as to the adequacy of such information for any intended purpose of the investors.

THANK YOU!
