

# Core sector output in May expands at 4.3%

SHIVA RAJORA  
New Delhi, 30 June

The output of eight key infrastructure industries — known as the core sector — expanded at 4.3 per cent in May, amid a high base effect and positive growth in five of the eight sectors.

In May last year, the core sector had grown by 19.3 per cent. The print for April 2023 has undergone significant revision to 4.3 per cent from 3.5 per cent estimated earlier.

Data released by the commerce and industry ministry on Friday showed that while growth in the output of fertilisers (9.7 per cent), steel (9.2 per cent), and coal (7.2 per cent) slowed from the previous month, the output in refinery products (2.8 per cent) and cement (15.5 per cent) accelerated.

Meanwhile, the contraction continued in electricity generation (-0.3 per cent), crude oil (-1.9 per cent), and natural gas production (-0.3 per cent) in May, thus exerting a drag on the aggregate output.

Aditi Nayar, chief economist at ICRA Ratings, said the

double digit growth in cement output for the second consecutive month and strong growth in steel points to a robust performance of the construction sector.

Madan Sabnavis, chief economist at Bank of Baroda, said the continued traction in cement and steel could be attributed to government spending. “In June, the Centre had given an additional instalment to states as part of state transfers to enable higher capex. Further, a loan was also extended to expedite the same,” he said.

The contraction in electricity generation for the third consecutive month in May was mainly due to the high base of 23.5 per cent growth during the same month a year ago, even though power demand picked up sequentially in May this year as energy demand for cooling increased.

“Though the fertilisers production slowed down from last month, it is expected to continue to remain robust for the next two months to keep pace with the kharif sowing requirements.

Meanwhile, the oil basket, however, continued to disappoint with negative growth for crude and natural gas and refinery products did relatively better with exports contributing to the same,” Sabnavis said.

The eight core industries account for 40.27 per cent of the weighting of items included in the Index of Industrial Production (IIP) and, thus, have a significant impact on the index.

“Although the growth in core output remained steady, the performance of a majority of the available high frequency indicators improved in May 2023 relative to April 2023, which are expected to keep the IIP growth in the range of 4-6 per cent in May 2023,” said Nayar.

Earlier last week, Fitch Ratings revised upwards its economic growth estimate for India by 30 basis points (bps) to 6.3 per cent for 2023-24 (FY24), citing stronger outturn in the March quarter of FY23 and near-term momentum, though it had cautioned that the slowdown in global trade still posed downward risk.

# Fiscal deficit at 11.8% of FY24 Budget target

NIKESH SINGH  
New Delhi, 30 June

The central government's fiscal deficit narrowed to 11.8 per cent of the FY24 target of ₹17.87 trillion at the end of May, against 12.3 per cent during the same period a year ago, according to data released by the Controller General of Accounts (CGA) on Friday.

In absolute terms, the fiscal deficit rose marginally in the first two months of FY24 to ₹2.1 trillion, compared to the fiscal deficit of ₹2 trillion during the corresponding period of 2021-22 (FY22). The fiscal deficit is the difference between the government's expenditure and income.

The finance ministry has targeted to bring down the fiscal deficit to 5.9 per cent of GDP in FY24 from 6.4 per cent of GDP in the preceding year. Capital expenditure during the first two months of FY24 touched 16.8 per cent of the ₹10

trillion target for FY24, which is nearly 57 per cent higher than a year ago period. Revenue expenditure in the same period of FY24 stood at 13.1 per cent of FY24 target, which is 3 per cent higher than the same period a year ago.

Aditi Nayar, chief economist at ICRA, said the release of a double tranche of tax devolution in June suggested that such releases may be relatively less back-ended in FY24, which could help to nudge faster capex by the states.

The Centre on Monday approved ₹56,415 crore to 16 states for capital investment under special assistance to states for capital investment 2023-24' scheme of ₹1.3 trillion for giving timely boost to capital spending by states in FY24.

The projects approved are across various sectors, including health, education, irrigation, water supply, power, roads, bridges, and railways. Funds for meeting the state

share of Jal Jeevan Mission and Pradhan Mantri Gram Sadak Yojana have been provided to the states under this scheme to enhance pace of the projects in these sectors.

According to the CGA data, the Centre's total expenditure of ₹6.26 trillion for April-May FY24 was 13.9 per cent of the target of ₹45.03 trillion.

Net tax revenue for the April-May FY24 period came in at ₹2.78 trillion, about 9.7 per cent lower than the corresponding period last year.

In the first two months of FY24, non-tax revenue rose by a whopping 175 per cent Year-on-Year (YoY) to ₹1.35 trillion.

“Higher than budgeted dividend surplus transfer of ₹84.2 billion from the RBI is likely to provide some cushion to meet any undershooting in other revenues streams including disinvestment or potential overshooting in expenses, relative to respective Budget estimates, such as MGNREGA,” Nayar said.

# Forex reserves fall to 1-mnth low of \$593 bn

India's foreign exchange reserves dropped \$2.90 billion to one-month low of \$593 billion in the week ended June 23, the Reserve Bank of India (RBI) said on Friday.

The overall reserves increased by \$2.35 billion to \$596 in the previous reporting week. It can be noted that in October 2021, the country's forex kitty had reached an all-time high of \$645 billion. The reserves have been declining as the central bank deploys the kitty to defend the rupee amid pressures caused majorly by global developments.

For the week ended June 23, the foreign currency assets, a major component of the reserves, decreased by \$2.212 billion to \$525.44 billion, according to the Weekly Statistical Supplement released by the RBI on Friday. Expressed in dollar terms, the foreign currency assets include the effect of appreciation or depreciation of non-US units like the euro, pound and yen held in the foreign exchange reserves. **AGENCIES**

# ₹ reports best month since Jan on strong equity inflows

## STRONG SHOWING

The rupee was little changed on Friday, but ended the month of June with its highest gains since January, on the back of strong foreign fund inflows into equity markets. The rupee ended at 82.0375 per dollar, compared to its close of 82.05 in the previous session. On the month, the rupee rose 0.77 per cent, highest since a 1.19 per cent appreciation in January.

Strong macroeconomic fundamentals like higher growth, cooling inflation, strong earnings have attracted over \$3.5 billion of inflows. **REUTERS**

# Govt raises rates on select small savings schemes

NIKESH SINGH  
New Delhi, 30 June

The finance ministry on Friday increased the small savings rates for the September quarter of FY24 for the one-year, two-year, and five-year recurring deposits, while keeping other interest rates unchanged.

Interest rates for the one-year and two-year deposits were raised by 10 basis points (bps) each to 6.9 per cent and 7 per cent, respectively, while small savings rate for the five-year recurring deposit was raised by 30 bps to 6.5 per cent.

The interest rates on key small deposit rates, such as public provident fund (PPF), Sukanya Samridhi Yojana (SSY), and national savings certificate, were kept unchanged at 7.1 per cent, 8 per cent and 7.7 per cent, respectively.

Earlier, the interest rates on NSC and SSY were increased by 70 basis points

(bps) and 40 bps respectively for the June quarter. In all, the government had raised interest rates on 10 small savings schemes for April 1 to June 30, 2023 period.

Deepesh Raghav, a Securities and Exchange Board of India-registered investment advisor, said every investor compares the return of small savings against the fixed deposits (FDs) offered by banks.

“The PPF has been kept unchanged likely due to the exemption from taxation. Despite unchanged rates in

PPF and SSY, they still remain lucrative for investors as they enjoy tax-exemption,” he said.

The ministry also notified the Mahila Samman Savings Certificate announced in the FY24 Budget, with a deposit limit of ₹2 lakh. The scheme will offer a fixed interest of 7.5 per cent for two years with a partial withdrawal option.

The Reserve Bank of India has kept the policy rates unchanged in the last two MPC meetings as the inflation has come within its comfort band of 4-6 per cent.
